10 Amp rating

Seamless Glass-look Design

The exclusive design enables glass-look on **whole faceplate including socket** making OPAL the only one on the market achieving desired seamless appearance

Push Button with LED Indicator

All switches and sockets come with sightly-convex flat push buttons, featuring **rockerless press** mechanism and ON/OFF **LED** function

Easy to Retrofit

OPAL is **Australian approved** and easy to retrofit to **standard** wall bracket

10 Amp rating   P2G   AS1G

TRANSCO

The Opal range is completed with TV, pay TV, data, dimmers and USB sockets. You can do it all with Transco Opal.

Transco Opal features edgeless glass look, sharp refined edges, and light emitting diode indication. They will suit any modern home, blending beautifully with chrome, stainless steel and glass splash backs.
The kitchen is the heart of the modern home. It is often renovated and many times reinvented. Now this pivotal space has modern outlets & switches to complement your vision.

IP66 INDUSTRIAL SWITCHGEAR
Australian/NZ Pin Configuration

*1 - The body is made from **polyamide 6.6** material. This material is **chemical resistant** in its standard form. (i.e petroleum acids, alkalines, detergent reducing and oxidizing agents etc.)*

 *- The body is **UV stable** making it ideal for use in the outdoors*

 *- Contains **no halogens or PVC** which will reduce toxic fumes in the event of fire*

 *- The body is **extremely strong** and passes steel ball drop test, 100mm Dia 4KG drop 0.7m high*

*2 - **I.E.C colour coding** for switch handles*
 Blue = 240V single phase
 Red = 415V three phase
*3 - **Padlockable** in off position*

*4 - **Lid hinged on the front** and not on the side to ensure that the ingress of dust and water is not possible*

*5 - **Cover is flush with body** and not protruding*

*6 - **Flush fitting latch** provides an easy opening action*

*7 - **Heavy duty contact wiring block** for all their 240V and 415V Combinations and Isolators*

*8 - The switch contact block comes **complete with neutral and earth terminals** for ease of installation*
*9 - All their switches and sockets are **pre-wired** for faster and easier of installation*

*10 - **Plastic cap cover** for Stainless steel screws*

*11 - Removable clip on bridge to make it easier for installation and an **extra seal** to maintain genuine IP66 rating*

*12 - **Neoprene O rings** for conduit entries thus negating the need for glue*

Din rail mount, rated at 275V 40kA.
1.9kVA.Indicates a red light when module is stressed.

CODE:	SP275

TIMER 2 MODULE WIDE

Din rail mount or surface mount, 24hr and 7 day time switch with analogue operation. Contains 15A contacts and 150HR backup battery, auto on manual override.

CODE:	TM

ENCLOSURE 1~4 POLE

Enclosure only, no door, no backboard, no busbar and no links
Available in 1, 2, 4 POLE
CODE:	ENC1	ENC2	ENC04

SWITCHBOARD 4~36 POLE

Complete surface mount board with door, links, busbar filler and backboard
Available in 4, 6, 8, 12, 18, 36 POLE

CODE:	SB04 ~ SB36

Lock available   Double-Row copper   Specifications   Bus bar   Filler
