The Opal range is completed with TV, pay TV, data, dimmers and USB sockets. You can do it all with Transco Opal.

Transco Opal features edgeless glass look, sharp refined edges, and light emitting diode indication. They will suit any modern home, blending beautifully with chrome, stainless steel and glass splash backs.

The kitchen is the heart of the modern home. It is often renovated and many times reinvented. Now this pivotal space has modern outlets & switches to complement your vision.
